Re: Representative of Foreign Manufacturer Letter

To whom it may concern:

Pursuant to the recent FDA Guidance Document (Policy for Diagnostic Tests for Coronavirus Disease-2019 during the Public Health Emergency Section), Jiangsu Dablood Pharmaceutical CO, Ltd. is notifying the FDA that it has selected Predictive Laboratories, Inc. (Predictive) as its agent to distribute our validated **“Diagnostic Kit for the Detection of IgM/IgG Antibody to SARS-CoV-2 Test”** that will be distributed in the United States under the brand name of **“Assurance AB™ COVID-19 IgM/IgG Rapid Antibody Test”**.

Assurance AB™ COVID-19 IgM/IgG Rapid Antibody Test is a SARS-CoV-2 specific IgM/IgG rapid antibody test intended for the qualitative detection of the presence of IgM/IgG antibodies in human serum, plasma and/or whole blood specimens collected from individuals who display signs and symptoms of COVID-19, were exposed to an infected individual with COVID-19 or want qualitative information of their IgM or IgG SARS-CoV-2 antibodies.

It is our understanding that Predictive Laboratories, Inc. is CLIA certified and CAP accredited, and as our representative, Predictive has notified the FDA of its intent to distribute the Assurance AB test, that we have validated, to laboratories or healthcare providers at point-of-care. Additionally, we understand that Predictive is aware of the FDA Guidance and is appropriately distributing this product with the following restrictions:

- This test has not been reviewed by the FDA.
- Negative results do not rule out SARS-CoV-2 infection, particularly in those who have been in contact with the virus. Follow-up testing with a molecular diagnostic should be considered to rule out infection in these individuals.
- Results from antibody testing should not be used as the sole basis to diagnose or exclude SARS-CoV-2 infection or to inform infection status.
- Positive results may be due to past or present infection with non-SARS-CoV-2 coronavirus strains, such as coronavirus HKU1, NL63, OC43, or 229E.

If you have any additional questions, please feel free to contact our representative at the following address:

Predictive Laboratories, Inc.  
2749 East Parleys Way, Suite 100  
Salt Lake City, Utah 84109
